Every body accustomed to make weekly visits to
the cattle-yards at Forty fourth-street and Fifthavenue was taken by surprise at the excessive stock
yarded last sweining and this morning. All the peas

in every place, at all suitable for their temporary detention.

It was estimated that over 4,700 head were received, over 2,200 of them unexpectedly from Albany. Included in the receipts is the usual quantity of half-starved and half-grown Heifers, Steers and dry Cows. The matter opened very irregularly; drovers and seculators were auxious to raudiae as soon as possible, and allowed the butchers to name their own prices and call their weights decidedly less than they really were.

Some bullbock that would weigh strong 6)5 cwt., were sold for 6 cw., and then, when the arccount was made up, some 50 or 5s were three in lot, loss than twenty head, that weighted full sixty pounds more than they sold for, and then the buyer had the face, or check, as the unfortunate drover called it, to knock him down 57 to make the account course out even. The rates were irregular all day, and the prospects were very dissouraging for this evening and to morrow.

It is hoped no one will despair of a cure until they have given Madame H.'s neclicine a trial. During her travole she has been the instrument, in God's hands, of restoring to health and vigor thousands who were on the verge of the grave, and who are now living monuments of her skill and successful treatment, and are daily exclaiming. "Bleesed be the day when we first saw and partook of Mail-Hollard's unrivaled medicines."

Satisfactory references will be cheorfully given when required. Madame H. will pledge her reputation and stake her all to make permanent cures in all cases which she undertakes.

Her mode of examination is with a clairvoyant eye, or second-sight. She, therefore, asks no questions, nor does she require invalids to explain symptoms, telling their cause and location with so much satisfaction as to merit and receive the confidence of all who have consulted her.
